

## AC-33 TYRE SHINE

AC-33 is a High-Quality Silicone & Solvent Tyre Shine Providing a Highly Reflective Shine

Also Suitable for Bumpers and Body Trim

### PRODUCT INFORMATION

AC-33 is a High-Quality Silicone Tyre Treatment. It is a Specially Formulated Blend of Silicones and Solvents that Enhances Reflectivity and Provides Broad Coverage on Tyres, Bumpers, Vinyl, and Body Trim.

### DIRECTIONS FOR USE

AC-33 Can be Sprayed, Painted or Wiped onto Surfaces  
 Best Results are Achieved by Evenly Spraying and Allowing 15 Mins to Dry  
 For a Quicker Dry Time, Wipe with a Clean Rag After Spraying

#### NOTE:

- Newer Tyres May Repel the Silicone due to the Presence of Manufacturers Coatings.
- Older Tyres May Soak up the Silicone Very Readily Diminishing the Gloss of the Finish.
